Disclaimers:

- All cylinders will be returned at the client's expense. Concorde will provide you with a quote to return these cylinders. Payments are to be made by credit card or PO if previously approved for credit. Once payment is received Concorde will schedule the pick-up.
- Cylinders that need to be hydro tested or re-certified will require a minimum of 10 additional business days added to your estimated return date.
- You will be provided a quote if a service is being performed on your cylinders or gas. Payment will need to be secured before your order is shipped.
- Pick Ups are performed in the afternoon and therefore require extended hours of operation or your pick may be rolled over to the next business day(s).
